

TO WIN FAME AT CHICAGO.

Athletes Ready for the World's Fair Championship Games

Men Who Expect to Win Prizes to the Metropolis.

What is expected to be the biggest athletic meeting ever held in this country will take place at Chicago next month, and the city of New York, as is fitting, will be well represented. The team of athletes which will go from this city to compete in the World's Fair championship games of the Amateur Athletic Union will not be large in point of numbers, but there is no discounting its efficiency as regards merit and ability.

The New Jersey Athletic Club will also be represented, and its members hope to win some of the prizes.

"We will win nine-tenths of the championships," said Secretary James E. Sullivan, in response to a question as to what kind of a showing New York would make at the big meeting. This means that the New York team, if two-thirds of the events are not won by local athletes, followers of athletics hereabout will be disappointed.

They are all hard in training, for the contests next month, and every one of them expects to go to Chicago. With the exception of one or two of these men, belong to the clubs—the New York Athletic Club and the New Jersey Athletic Club.

The last named is holding up the honor of the metropolis on track and field at Chicago on the 16th of next month, shows that Mr. Sullivan's doings are justified.

As the New York Athletic Club will have a "no swimming, no diving, no foot" contingent, will be considered first.

There is Mitchell-Big Jim in the 100 yards. In the events which will compete, throwing the 56-pound weight for distance and height, and the javelin, which may hold the world's records for these three events, his hammer record being 45 feet 23 inches.

Bridges will be in the weights, N. Y. A. C. will have in the weights George R. Gray, who holds the world's record, 46 feet 7 1/2 inches, for putting the shot. His record shot, and ex-California Gray seems to have a sinecure for the shot-putting contest ("Point" Gillette) in which he is to score a point for two for his club.

As far as the sprints—the 100 and 200 meters—concerned, Harry Jewett, the fleet-footed Duxbury, condition and enters the competition, the championships in these events will be given to him. He has won the 100 yards done even time in seconds, a hundred yards, which is more than any man in or out of New York has done.

But the N. Y. C. has a weakness, ability to sprint is best described by saying he is nearly an even time man, and the 200 yards, he is not.

E. W. Allen, another Yale man, and a member of the N. Y. A. C., has done sprints, and may get a place in the race, and is thought by some to be second. Richards is said to have done the race in seconds, and by some is regarded as coming champion. Jewett will have the lead in the 100 yards distances, though the latter.

There is another 100-yarder, Billie Wilson, who has won the broad jump and hurdles. He will be the champion amateur, walker of America and Canada. Barnes known in athletic circles as the "Kangaroo."

Cary at 100 yards, having a handicap of 1-2 yards.

In the 100 yards the N. Y. A. C. will have Tom Shearman, an old Yaliesman, who carried the cherry blossom to victory, number one in the organization was in existence. Shearman is the present A. A. C. mate champion, and is to be up to his mark. He has a great burst of speed at the finish, but doesn't always walk with good judgment. Such was not the case at the A. A. C. meet, when he judged the pace to a novelty, winning easily. In the Metropolitan championship he is to walk the line, and doubtless in the early part of the journey, C. W. Ottley, of Princeton, who won the last Intercollegiate and Walks, and W. L. Lovell, the most mercurial foot representative in the walk.

Last, but by no means least, is Tommy Connel, the "little Irishman" a long distance runner of world-wide reputation, who has come to the front this year, as some of his recent performances have shown. Will represent the Ireland in both the one and four mile runs. Connel won the championship of four distinct nations in one year, and is to be up to his mark. The old stand-by and noted distance runner, E. C. Carter, "Good Old Eddie Carter," is known. Carter is a game and consistent runner, and will help to bring Travers Island story for his 10th birthday, and is in full form. Carter's time being 8 min. 11 sec. He holds the American record for a mile.

With this array of athletic talent it certainly looks as if a majority of the New York team will do well in the World's Fair.

Harry Jewett, the "Point" Gillette, and is to be up to his mark. The New Jersey Athletic Association is to have great representation in the half-mile run, with the experts well known in athletics, particularly those who have beaten two minutes for the distance. V. Winslow, Winslow's best performance was when he led the tape ahead of T. H. Turner, the Princeton College crack and present A. A. C. mate.

They are all hard in training, for the contests next month, and every one of them expects to go to Chicago. With the exception of one or two of these men, belong to the clubs—the New York Athletic Club and the New Jersey Athletic Club.

was remarkably good over the low bars during two years ago.

At the meeting the A. A. C. will have one entry only at the World's Fair meet, but with him they expect to land a champion.

Xavier A. A. men will be at the championships. One is A. J. Walsh, winner of the metropolitan champion in 1900, number one in the organization was in existence. Shearman is the present A. A. C. mate champion, and is to be up to his mark. He has a great burst of speed at the finish, but doesn't always walk with good judgment. Such was not the case at the A. A.
